MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance. You can select from a variety of modular training courses to ensure your team receives relevant education.

BEYONDTRUST TRAINING FOR SECURITY PROFESSIONALS

The Password Safe Administration course is ideal for security professionals tasked with administering, monitoring, reporting and configuring your unique BeyondTrust environment. During the course, you will learn how to efficiently administer and configure Password Safe on an ongoing basis.

FLEXIBLE TRAINING OPTIONS: ON-SITE, VIRTUAL OR ELEARNING

This 15-hour certification course is available for purchase in three different formats:

- Per individual student for our public virtual instructor-led course
- Per individual student for our interactive eLearning
- For one private course session for up to 10 learners (virtually or on-site)

All courses come with manuals, virtual lab environments, and access to BeyondTrust University’s education portal. Upon course completion, learners will earn up to 15 hours of Continuing Professional Education credits (CPE).

Instructor-led courses are available in English, German, and Spanish.

KEY LEARNING OBJECTIVES

- **Initial Configuration** – learn how to configure Password Safe for your environment.
- **Onboarding Systems** – discover new assets in your network and enable their management through Password Safe.
- **Session Usage** – learn to use the Password Safe console to: request & approve sessions, enable session recording, and view sessions & reports.
- **Creating Workflow with Smart Rules** – manage your workflow by adding directories, users, and machines through Smart Rules.
- **Additional Configuration** – configure databases, Remote Apps, and SSH Keys.

GET CERTIFIED BY BEYONDTRUST

Participants who successfully complete the Password Safe Administration training are eligible to take the associated BeyondTrust Certification exam.

*Recording and material reproduction rights are not included. Train-the-Trainer courses are also available.*
ABOUT BEYONDTRUST
BeyondTrust is the worldwide leader in Universal Privilege Management, offering the most seamless approach to preventing privilege-related breaches. Our extensible platform empowers organizations to easily scale privilege security as threats evolve across endpoint, server, cloud, DevOps, and network device environments. BeyondTrust gives organizations the visibility and control they need to reduce risk, achieve compliance objectives, and boost operational performance. We are trusted by 20,000 customers and a global partner network. Learn more at www.beyondtrust.com.
