MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance.

BEYONDTRUST TRAINING FOR ADMINISTRATORS

The **Privileged Remote Access Subscription** is ideal for system and network administrators who want to learn how to configure Privileged Remote Access in the network and manage secure access to critical systems utilizing BeyondTrust’s patented Jump Technology and other access features. During the course students will learn how to efficiently administer and configure BeyondTrust on an ongoing basis for optimized security.

FLEXIBLE CONTINUOUS TRAINING: eLEARNING AND INSTRUCTOR WORKSHOPS

*Privileged Remote Access Subscription* training includes on-demand eLearning and instructor-led workshops that provide a strong foundation for understanding your implementation. The materials are updated continuously to ensure you make the most of the recommendations and insights into product features and best practice use-cases. Earn up to 12 hours of Continuing Professional Education credits (CPE) and/or become a BeyondTrust Certified Administrator.

KEY LEARNING OBJECTIVES

- **Configuring the Appliance** – learn how to configure Privileged Remote Access in your network, including: software installation, defining email alerts, and saving site backups
- **Provisioning Secure Endpoint Access** – defines best practice security options regarding endpoint access and site-wide settings
- **Establishing Security Policies** – focuses on session policy creation, defining local users and support teams, defining group policies, and configuration of LDAP security providers
- **Optimizing Session Reporting and Archival** – learn how to access detailed session reports and how to use the session forensics feature, as well as session archival with the BeyondTrust Integration Client
- **Manage Credentials** – details how to configure and use vault to allow storage and injection of privileged credentials

GET CERTIFIED BY BEYONDTRUST

Participants who successfully complete Privileged Remote Access for Administrators training are eligible to take the associated BeyondTrust Certification exam.

*Recording and material reproduction rights are not included.*
BeyondTrust Subscription Training maximizes your use of Privileged Remote Access empowering you and your organization.

On-demand Courses

- **eLearning** - Unlimited access to online courseware—anytime, anywhere.
- **Role-based Curriculums** - Quickly ramp project teams into their roles with prescriptive coursework.
- **Personalized Learning Paths** - Analyze your enablement needs to determine training curricula that help your users reach their goals.

Online Instructor-Led Webinars

- **Leading Practices** - Participate in expert-led educational webinars and workshops that include product walkthroughs, best practices, and interactive discussions.
- **New Feature Enablement** - Stay up-to-date with new Privileged Remote Access releases and features that can enhance your work stream.

ABOUT BEYONDTRUST

BeyondTrust is the worldwide leader in Universal Privilege Management, offering the most seamless approach to preventing privilege-related breaches. Our extensible platform empowers organizations to easily scale privilege security as threats evolve across endpoint, server, cloud, DevOps, and network device environments. BeyondTrust gives organizations the visibility and control they need to reduce risk, achieve compliance objectives, and boost operational performance. We are trusted by 20,000 customers and a global partner network. Learn more at www.beyondtrust.com.
